

Director Tasks

As the Director, you are not allowed to show your group this sheet...

This is an example of how a Director sometimes has to explain a vision or idea they have in their head when filming a TV programme and get people around them to turn it into reality.

Task 1

You need to get members of your group to position their bodies to spell the word "Love".
You need to explain what you want members of your group to do by looking at the image below and giving verbal instructions. You are not allowed to show the picture to members of your group until the end of the task.

This is an example of how a Director sometimes has to read the notes from the person who wrote the story or the script and then explain how they would like the people around them to bring it to life.

Task 2

You need to get members of your group to bring this part of a written script from Channel 4 TV programme "Hollyoaks" to life.
"The people in the room had mixed reactions to Tony's return to Hollyoaks after 15 years away".
Think about what a mix of reactions might look like and instruct or "direct" everyone to create this.
